Hopper Dredger Sif R

Hopper Dredger

Sif R

Sif R is a unique split hopper dredger. The hopper splits easily in shallow water, with a draught of merely 4.8m fully loaded, and thereby unloads the material in a very exact, quick, and highly economical way. Sif R is able to dredge at depths of 24m, with possibility of extension.

The very shallow draught, combined with the excellent capability in positioning and manoeuvrability, make Sif R a preferred choice for all types of dredging works.

Sif R uses highly advanced technology for positioning and dredging operations, including RESON PDS 2000. The vessel has proven to be very flexible and competitive. Furthermore, the vessel is equipped with state-of-the-art environmental technology, meeting and exceeding the latest environmental requirements, by reduction of both emission and fuel consumption.

Specifications

| IMO | 7424358 |
|------------------|---------------------|
| Call sign | PIVA |
| MMSI | 246058000 |
| Gross Tonnage | 1,693GT |
| LOA | 80.00m |
| Breadth | 13.80m |
| Hopper capacity | 2,173m ³ |
| Draught loaded | 4.87m |
| Draught unloaded | 2 90m |

| Dredging depth | . 24m |
|-----------------------|-----------|
| Main engine | . 2x746kW |
| Bow thruster | . 350kW |
| Pump ashore power | . 701kW |
| Total power installed | . 3,303kW |
| Speed empty | . 8kn |
| Speed loaded | . 7kn |
| Flag | . Dutch |
| Class | . DNV GL |

Nordic mythology

Sif is married to Thor and known for her golden hair, which was given to her by Loke. When Loke cut off her hair, Thor forced him to give her new golden hair.
