

Hopper Dredger

Toste R

Toste R is a multi-purpose dredger optimised for narrow or shallow water dredging in channels, harbours, and near shore.

With its hydraulic Liebherr HS 825 HD crane, Toste R is the perfect vessel for dredging high spots, corners, alongside piers, and around other obstacles in a port.

Toste R operates with a multitude of grabs, including grabs for handling of sand, and heavy duty grabs for handling of harder soils, as well as state-of-the-art environmental grab.

Toste R is capable of precisely maintaining a fixed position by means of Dynamic Positioning (DP1) with high accuracy during operations. "No anchors, no spuds".

Furthermore, Toste R is equipped with a dredging pipe, ideal for dredging sand in very shallow waters.

Toste R can discharge using bottom doors or by pumping ashore.

Specifications

IMO9042087
Call signOVPK
MMSI219000615
Gross Tonnage556GT
LOA45.70m
Breadth10.50m
Hopper capacity535m³
Draught loaded3.50m
Draught unloaded2.20m
Dredging depthUp to 100m
Main engine2x261kW

Pump ashore power248kW
Bow thruster200kW
Total power installed1,516kW
Speed9kn
